

New Consultants Course - This course is now full.

Start Date: 9/30/2021

End Date: 10/1/2021

British Orthopaedic Foot & Ankle Society

This educational meeting is designed specifically and exclusively for UK New Consultants. The format is not that of a course, but rather a forum covering key topics of relevance to both Fellows and Consultants through 'round table' and small group discussions. Some topics for presentation will need preparation by attendees beforehand and many of the sessions will be chaired by the attendees. The course includes a final day of cadaveric dissection and runs over two days.
