

UK Fellowship Questionnaire

Did the Fellowship fulfil the BOFAS criteria Yes No

A good quality F&A Fellowship should provide a balance between surgical practice in theatre and of decision-making in outpatients, with at least two clinics and at least three theatre sessions per week. There should be a regular multi-disciplinary team meeting, study leave with both protected time and a budget, a paid session for research or audit and a clear mechanism for feedback.

Please answer these questions in the free text box below.

1. Which Year?
2. What was the annualised total number in your log book? (ie if 6/12 then double)
3. What was the % of cases that you were the lead surgeon for most of the procedure?
4. How many academic publications are you highly likely to submit from your Fellowship (be honest)?
5. What were the highlights?

1. My fellowship was for 2018
2. Total numbers for logbook will be 620 cases for the year.
3. I was lead surgeon for 90% of the cases
4. At present there are two likely publications for the year
5. Among the highlights for the fellowship has been the balance between supervised lists (with two consultants) and independent lists (which I can select cases for). The fellowship has also included operative management of some complex trauma and involvement in diabetic foot management. Excellent regular regional meetings have been particularly educational.
