

Advanced Arthroscopy Foot & Ankle course

March 14-15, 2019 | Munich | DE

FAWW goes to Munich...

This course is aimed at established Consultants and senior Trainees who wish to extend the 'scope' of their practice using Foot & Ankle Arthroscopy techniques. Participant numbers will be restricted to 32.

The national and international faculty have extensive experience of the development and practice of the more advanced arthroscopic techniques that have become available over the last twenty years. Participants need to be medically trained and have, or be approaching, their CCT or equivalent.
