

National Foot and Ankle Registry Self Registration

British Orthopaedic Foot & Ankle Registry

Improving Foot & Ankle Care Through Patient Outcomes

Helping Improve Patient Care Through Knowledge

Registry Information

Why Join the Registry?

- Allows your surgeon to track your recovery and outcomes
- Helps improve future care for thousands of patients, just like you
- Supports national research and quality improvement
- Protects access to effective surgery through strong clinical evidence
- Enables comparison of results nationally to maintain high standards

Your Data is Safe and Protected

Your Data is Safe and Protected

- Stored securely under the Data Protection Act
- Only seen by clinicians involved in your care
- Never shared with outside organisations
- You may withdraw at any time without affecting your treatment

What is collected?

- Information about your diagnosis and treatment
- PROMS (Patient Reported Outcome Measures) on pain, walking ability and quality of life

Take Control of Your Recovery

Your experience matters. By joining the British Orthopaedic Foot & Ankle Society (BOFAS) Registry, you can help your surgeon monitor your progress and improve treatment for future patients.

The BOFAS Registry securely collects information about your surgery and recovery using short questionnaires completed before and after your operation. This helps ensure that the right operations are offered to the right patients, based on real outcomes.

How to register using QR code

1. Open your phone camera or QR scanning app
2. Point it at the QR code
3. Tap the link when it appears
4. Enter your details and confirm consent
5. Complete a short pre-operative questionnaire

Follow up questionnaires

You will automatically receive questionnaires:

- Before surgery
- 6 months after surgery
- 12 months after surgery
